Working together for a sustainable future!

We are determined to protect the planet from degradation, including through sustainable consumption and production, sustainably managing its natural resources and taking urgent action on climate change, so that it can support the needs of the present and future generations.

No, it's not a climate crisis, but a societal crisis. And it has devastating consequences for the climate and nature - for the entire world as we know it today.

Translated from Lars Mathiesen, *Demokratikulturen - Upplysningens betydelse för det svenska 1960-talet*.

There are many benefits that will be achieved through the collaboration and cooperation of the different international organizations and their respective organizations, the main ones will be: promoting environmental care in different countries; citizen and social awareness of the educational community and beyond; the sharing of different international visions and the global oncoming that this allows; the fight against climate change and the improvement of measures to help achieve an ambitious but real project.

GREEN SCHOOLS

This project pretend to start with its two cents working on the following workable objectives: to raise consciousness about the importance of being sustainable citizens to preserve our environment. The project also focuses on litter and waste so it will encourage students a sense of responsibility. In addition to this, the project enables schools to discover how work on Green-Schools programmes can positively influence our global community.

The exchange of good practices with students and teachers from other countries enhances a sense of international cooperation, narrowing distances and putting emphasis in all the similarities we can share to establish long-term and coordinated actions to implement Green habits at schools and spread its benefits outdoors.

The outcome is expected to be the implementation of a local Green Scholar Agenda with commitments to become schools sustainable places.

BE GREEN

The 2030 Agenda for Sustainable Development charts a new path of balance for humanity and the planet. The 17 Goals are highly interconnected.

The four participants of this project are aware of the importance of taking an active and a model role for students to show them how important is for our present and our future to acquire permanent and constant sustainable actions to preserve environment and climate change.

Introduction to the 2030 Agenda: A New Agenda for a Sustainable World

PROJECT IMPACT

This project is of enormous importance because it can drive the implementation of a project that benefits people around the world, not at a fixed point. The ubiquity of this project and its expansion is what makes it essential, people around the world thinking the same and trying to get that 20/30 Agenda that the EU has started, to be finalized in school settings.

Students who will be awarded directly with this project and who will be the engine of this project, will be able to have an opportunity that without this project would not be possible because of the few resources that their families have. That is why the help that the project can provide will be essential to its future potential as environmentally responsible adults and are able to make decisions that promote the development of measures that appear within the European framework in relation to the fight against climate change.

SHORT-TERM JOINT STAFF TRAINING EVENTS IN BUCHAREST, ROMANIA

The aim of this meeting was to ensure all partners to have a clear understanding of how each partner's planned activities, how to contribute to the project as a whole, and strategies to be used in communication.

- ✓ To implement GREEN program in their schools in order to support their students to exchange experiences, observations, presentation of sample trainings
- ✓ To open up cultural bridges by developing and enhancing cross-cultural understanding and multicultural competence, and cooperation with teachers/trainers from other countries
- ✓ To promote project activities and multicultural understanding and collaboration at an EU level.
- ✓ To create a network that provides effective/good practices in working with teacher trainers from different GREEN Institution

held at ASOCIATIA DIRECT from 14th - 17th June 2022

**SHORT-TERM EXCHANGES OF GROUPS OF PUPILS IN
SAMSUN, TURKEY IN ERASMUS+ PROJECT, KA210
GREEN AND SUSTAINABLE PLACES BASED ON AGENDA
20/30, NB 2021-1-ES01-KA210-SCH-000030084
7-10.11.2022**

**Project activities: Cleaning the beach, Protecting the Delta -
BIRD SANCTUARY, Workshops "Reduce, Reuse, Recycle";
students learnt to enjoy a better life!**

SHORT-TERM EXCHANGES OF GROUPS OF PUPILS IN ALMENDRALEJO, SPAIN, FROM 23-26.01.2023

"GREEN AND SUSTAINABLE PLACES BASED ON AGENDA 20/30", NB 2021-1-ES01-KA210-SCH-000030084

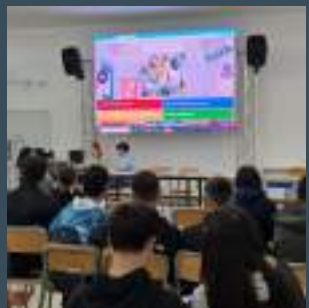

Project activities: WORKSHOP RECYCLING TOOL FOR COLLECTING TRASH COMPETITION, Trip to Trujillo, guided Tour based on "Game of Thrones"; visit to planetary Ceta Ziemat; tour around Mérida, Carbon Footprint Workshop at school with 3rd ESO students; Erasmus Corner Opening; TOWN HALL CEREMONY; FAREWELL PARTY

SHORT FINAL STAFF MEETING, FROM 28-30.03.2023

"GREEN AND SUSTAINABLE PLACES BASED ON AGENDA 20/30", NB
2021-1-ES01-KA210-SCH-000030084

Project activities: WORKSHOPS - "BIOMATTEI COSMETICS" lab by the High School in Cerveteri, Guided tour to the Etruscan Necropolis; treasure hunt in Rome, Meeting for teachers, Conference " Environmental Sustainability", Farewell dinner.

30.03.2023, CERVETERI, ITALY

Let's not EAT UP
OUR Planet!

Extreme climate
change

Good food, clean
food, fair food

FEED BACK from students

Erasmus+ project has brought me a lot of new memories. For example, I met new people and had the opportunity to make new friends. In addition to this, we visited some of the most beautiful attractions of cities. This project has a big place in my heart from now on and I'd be glad to encourage other students to take part in it. It is known that life is short and it is a better way to learn more about our world either by visiting places or by making new friends from other countries. Erasmus + was definitely worth it. Having the incredible opportunity to take part in the Erasmus+ program helped me to grow more receptive to interactions outside of my home country. Everyone who participated in this program was genuinely friendly and made the whole thing better.

For me, the Erasmus+ project was a marvellous experience. I enjoyed every day of the project.
